STRUCTURAL IRON AND BRIDGE WORKERS MAY SPLIT.

Delegates Representing 10,000 Mer Will Withdraw If the New Yorker Be Not Suppressed.

PROBABLE TO-DAY

BUCHANAN AND DONNELLY THE CAN-DIDATES FOR PRESIDENT.

If the Latter Is Elected Many Delegates Will Quit the Convention at Kansas City.

KANSAS CITY, Sept. 27.-Pittsburg Cleveland, Buffalo and Wheeling delegates representing 10,000 men, decided at a meeting here to-night to withdraw from the International Association of Structural Iron and Bridge Workers in the event of the continued dominance of Samuel J. Parks, the New York walking delegate, in the annual convention now holding. Michael Faherty, chairman of the Pittsburg delegation, will direct the fight against Parks on of Parks and his influence has so shaped affairs that the New York walking delegate ing cloudiness and warmer; fresh west is an issue as directly opposed to the Buchanan regime and it has been decided to fight it out on that line by re-electing Buchanan. At a caucus of Buchanan men to-night it was figured that the president

could count on forty-three votes.

H. F. Donnelly, of Albany, is to be the Parks candidate for the presidency. Those opposed to him assert that his election will mean a reign of bossism by Sam Parks and that they will withdraw from the international body if it comes about. Donnelly to-night makes the positive claim that he will be elected, asserting that he has fiftyfive votes out of 102 pledged to him.
A caucus, attended by Parks and his followers, is in session to-night and it is said that a plan to expedite the business of the convention to an early adjournment under consideration. Parks and his followers profess to believe that President Buchanan and his supporters intend to attempt the disruption of the present organ ization, that they may reorganize the coned. Parks wants to finish the business of the convention, including the election of officers, before Buchanan can accomplish the

The statement attacks Samuel Parks and continuing says: "Keep that man in and within two months there will be nothing left of No. 2, and the international unio will be down and out as far as New York is concerned. Now we will say that any organization that relies upon brute force to maintain its supremacy in the end will

Delegate Parks said to-night: "I uoted in New York as saying that I am loing to raise all kinds of trouble upon my return there. Present conditions do not exactly call for strikes. I do not intend to call any strike among the structural iron workers engaged on buildings in New York. But if there is not a change in the ditions at the East river bridges I shall start something there in about two weeks." President Buchanan said this afternoon: know of no reason why there should l any further trouble in the convention. There will be no split.'

Strike of 15,000 Miners Threatened. ALTOONA, Pa., Sept. 27.-President Patrick Gilday, of District 2, United Mine Workers, is authority for the statement that a strike of 15,000 miners employed by the Pennsylvania Coal and Coke Company, the newly-formed soft coal combination in the central Pennsylvania field, is threatened. He has given the officials until Oct. 3 to agree to carry out the provisions of the Altoona scale. Failing to do so, he will order a strike. Caused LaGrippe Heart Trouble,

Nervous Prostration and Dyspepsia.

My Friends Know Heart Cure Cured Me.

Mrs. C. O. Hurd, 118 W. Third St., Muscatine, Ia., is well known throughout her section of Iowa as an ardent worker in the M. E. Church. She says: "LaGrippe left me with a severe case of nervous depression and nervous dyspepsia, which soon affected my heart. I suffered from sleeplessness, headache, extreme nervousness and twitching of the muscles. The slightest exertion would cause shortness of breath, a numbness of my body and hot flashes with pain. I will tell you what I am constantly telling my friends —that Dr. Miles' Heart Cure cured me so that all these disagreeable symptoms left me. I may add that for severe pain I have never found anything to equal Dr. Miles' Anti-Pain Pills and think the Nerve and Liver Pills are a wonderful stomach remedy.

"Our son was stricken down with heart trouble in his twentieth year. For two months we got no sleep with him at night, so we commenced to use Dr. Miles' Heart Cure and Nervine with the Nerve and Liver Pills and today he is sound and well. In fact he passed a physical examination since his sickness and is with the Army in the Philippines. I desire to add that Dr. Miles' Anti-Pain Pills have certainly been a boon to me. I am frequently troubled with sick and nervous headaches and I have never found anything that would relieve me so quickly and leave me feeling so well there-after."—Mrs. Alice Moad, Buffalo, Mo.

TO HULL IN A BALLOON.

First Time the Feat Has Been Performed-Journey Is Made in Less Than Eighteen Hours.

LONDON, Sept. 27 .- Count De La Vaulx and Count D'Outremont descended to-day in a balloon near Hull, Yorkshire, having journeyed from Paris in 17% hours. This is the first time that a balloon has successfully traveled from France to England.

Count De La Vaulx is one of the bestknown French aeronauts, and he has made several very interesting aerial voyages. In August, 1902, he made the record balloon trip for that eyar, having ascended from St. Cloud, near Paris, and landed at Opoes, Hesse, a distance of over 419 miles, which he covered in nineteen hours. In 1901 and again in 1902, accompanied by French warships, he made endeavors to cross the Mediterranean from near Marseilles to Algeria in balloons to which was attached a floating apparatus intended to aid the balloonists in keeping their course, with a view to demonstrating the possible utility of balloons in time of war. Both these efforts were unsuccessful, the balloons being driven back to the north coast of the Me ranean. Last January Count De La Vaulx sent a trial balloon from Gabes, in Tunis, across the Desert of Sahara with a view to ascertaining the feasibility of an aerial trip across the desert.

THREATS OF DYNAMITERS

ATTEMPT TO "BLEED" THE NORTH-

ERN PACIFIC RAILWAY.

Fifty Thousand Dollars Demanded by Persons Who Tried to Blow Up Bridges and Tracks.

HELENA, Mont., Sept. 27 .- It has developed that the recent attempts to dynamite bridges and tracks on the line of the Northern Pacific between Livingston and Missoula, was in furtherance of a plot to force the railway company to pay \$50,000 for immunity from the outrages. In August last the company received a letter demanding \$25,000, in which it was threatened that James F. Fee, Greencastle; Major T. J. ling \$25,000, in which it was threatened that Louden, Wilmington; Major W. J. Coleman, New Albany; Major Thomas Coulter, dynamite would be used on the line. No attention was paid to the demand, and shortly afterward the railroad bridge at Livingston was partly wrecked by dynamite. A few nights later another stick of

dynamite was exploded near Roseman under a passenger train. Other letters followed, and the dynamiters proposed that the company pay \$50,000, and if it acceded to the demand it was to carry a white flag on engines hauling trains and on Sept. 22 was to run a light engine from Butte to Missoula and at a point on the road it was to stop on signal and an agent of the company was to pay over the money. The company, hoping to catch the men, put out the white flags and on the night agreed upon ran the light engine. Behind it followed another engine pulling two cars. One was filled with armed sheriffs and deputies and the other contained horses and bloodhounds. The run was made from Butte to Missoula, but there was no signal, and it was thought the men had been scared off. Shortly after the letters began to arrive again from the dynamiters, making the same demand and tell-ing the railroad if it agreed to the terms to put the flag on the engines. This the railroad company has not done, and in the past two weeks there have been four atempts to damage the line by the use of

dynamite. ALLEGED INCENDIARISM.

Four Fires Started at Oberlin Within Twenty-Four Hours.

OBERLIN, O., Sept. 27 .- The authorities of this city believe that an incendiary is at work here. Four fires have been started in the down-town portion of the city within the last twenty-four hours.

Because of prompt work by the fire department, the losses were confined to small ing of a school building early Friday with the down-town area. A member of the fire department, who was suspected of being the incendiary, was arrested, but on examination proved his innocence. The reason for his being suspected was that the firemen are paid for each run that

BRIDGETON, N. J., Sept. 27.-The plant of the Ferracule Machine Company, of this city, was destroyed by fire to-night, entailing a loss estimated at \$100,000, which is partly covered by insurance. The fire is supposed to have been started by an ex-plosion in the E er room of the establish-ment. The company manufactured, among other things, fire dies for coins and medals, etc. Two hundred persons are thrown out
